### Acoustic Solutions *including* Soundproofing

A placement agency recently built 8 interview booths but the conversations were heard clearly between rooms. Who do you think they turned to solve this problem?

A leading college in the King's circle area wanted to start a multimedia course. They needed to build a soundproofed multimedia laboratory and advice on the latest hardware and software. Who do you think they turned to for the solution?

**The answer is InSync Studios, the Audio specialists**

Not only do we record Voice and Music, our engineers can offer the best and most cost effective, customized acoustic solutions with our latest audio measuring instruments.
